

Paper Slide Videos

Rubric for Paper Slide Video Project

<http://maps.playingwithmedia.com/quick-edit-video/>

Work with partners in your group to complete the attached planning guide pages. Review the rules for Paper Slide Videos in the graphic on the right. Your final video should include the following elements.

Slides 2 - 6 should have **MINIMAL** text on them!

Time limit for final video:

_____ min

One Take from: <http://paperslide.wikispaces.com/Guidelines>

Students should create their plan (storyboard) and practice! They only get ONE SHOT at recording.

Non Stop Video

Once the camera starts, it doesn't stop! This just means the students need to be well-rehearsed!

No Editing

Part of this quick process is due to the 'no editing' rule. No trimming, no adding fancy titles or transitions.

Quick Publishing

These can be created using your document camera and the AverVision software OR you can use a video camera (the flip cameras are fabulous!).

Slide #	Required Content		Poor 2	OK - 3	Good - 4
1	<u>Introduction Slide</u> : Include presentation title, group member first names & last initials (not full last names), teacher's name, class period, grade level, date, and an illustration.	has required content			
2	<u>Background / Foundational Information</u> : What basic facts should people know about your topic? Include a related illustration.	drawings are related			
3	Same as #3	content is accurate			
4	<u>Importance</u> : Why is your topic important? Include a related illustration.	good oral fluency			
5	<u>Open Ended Answer</u> : Provide answers to one or more of the open ended questions for your topic. Include a related illustration.	reflects depth of understanding			
6	Same as #5	reflects creativity			
7	<u>Bibliography</u> : List sources' title, publication name & date. Verbally share a concluding "clincher" statement or question.	time is under the limit
